Private Event/Full Facility Buyout

Private events held in the main play space are completely private and closed to the public during your rental.

All setups take place within the main play area, typically across from the bounce house and garage door. This is where we arrange the backdrop, children's seating, and cake table.

Food is generally served in the parent lounge area, which includes all adult seating. The full décor and event layout are designed to fit seamlessly within the main play space, creating an immersive celebration experience.

Unlike parties hosted in the Big Corner or Bright Corner rooms—where decorations and food must remain within the designated private rooms—main space events include exclusive use of the play area and flexibility for larger themed setups.
